

## Limited Lifetime Warranty

Every Larrivée instrument is warranted to the original retail purchaser against defects in materials and workmanship. Non-original owners have no rights under our policy. To ensure your rights under our warranty, please go to [www.larrivee.com/owner-registration](http://www.larrivee.com/owner-registration) and complete the registration form. You can also find it under "Support" on our website.

This warranty does not include wear from everyday use, damage resulting from abuse, neglect, accident, or exposure of the guitar to extreme temperature or humidity conditions. The settling of the finish is considered "normal wear" and not covered under our warranty. Setup and action are non-warranted as they are a matter of personal preference and subject to personal style. Hardware not manufactured by Larrivée is covered up to 12 months after purchase. Ebenoid and other composite tuner buttons can break on impact and are therefore not covered under warranty.

Larrivée performs all warranty work in-house only. This ensures a professional, accurate assessment of your instrument. Larrivée Guitars will not reimburse for work done outside of our facility. To send in your instrument for warranty assessment, please complete the Return Authorization (RA) form on our website and submit it. The RA form can be found by going to <https://www.larrivee.com/repairs> or under "Support" on our website. Guitars received without a return authorization number will be refused and returned freight collect. No warranty claim will be accepted without proof of original purchase. Warranty is for repair and not replacement. This warranty takes the place of any other warranty, expressed or implied. You may have other rights under local law. Unauthorized repairs or alterations may void this warranty. The customer is responsible for shipping charges to and from Larrivée.

The best warranty is a careful and knowledgeable owner. Please take the time to read through our "Care & Maintenance" guide on our website.
